This year, school hours have been aligned at all schools that use transportation services to optimize yellow school bus service. These changes are one part of the CBE's efforts to develop a long-term, sustainable transportation service for all CBE students.

We know that this change will have an impact on many families. By informing you before the end of this school year, we hope you are able to make the necessary adjustments to your routines and make any required childcare arrangements before the start of the 2017-18 school year.

I'd like to thank you for your patience and support. We look forward to a great year in learning together next year!
